SKILLS

- **Programming Languages:** Python, JavaScript, GoLang
- **Backend Framework:** Django, FastAPI, Flask
- **Database:** MySQL, Firestore and PostgreSQL
- **API Knowledge:** REST API
- **Version Control:** Git, Bitbucket, GitHub concepts like Branching, Merge Request, Pull, Push, etc.
- **Design Patterns:** Serverless Architecture, Test Driven Development (TDD), SOLID principles, Hexagonal Architecture, Single Responsibility Principle(SRP).
- **Cloud Knowledge:** IAM, Cloud Function, Cloud Run, Pub/Sub, Firestore, Cloud Build, Cloud Storage, Google Deployment Manager, API gateway, Artifact Registry, Cloud Spanner, Container Registry, Cloud Monitoring, External Load Balancer, BigQuery, Vertex AI etc.
- **Infrastructure Knowledge:** Docker, CI/CD process such as bash script, YAML, automating build and release process, Google Deployment Manager

EXPERIENCE

Gigalogy | Software Engineer Tokyo, Japan (Hybrid)

2023 Sep. – Present

- Created a **robust CI/CD pipeline** which automates the **release** process of backend microservices in **Google Cloud Run**
- Built **pipeline** to add support for **Machine Learning** models in **Google Cloud Engine (GCE)**
- Built CI/CD pipeline to deploy **llamaz** models (all variants) in **GCE** and used **Deployment Manager** as **IaC**
- Used **bash scripts** to **automate** the whole release process of ML based services
- Tools Used: **Fast API, Docker, GitHub Actions, S3, AWS Elastic Search, ECS, CloudWatch**

UDPlatforms Inc. | Software Engineer Sterling, Virginia (Remote)

2021 Nov. – 2023 July

- Deployed microservices as **Function as a Service (FaaS)** using **Google Cloud Function** and **Cloud Run**
- Built **infrastructure or CI/CD pipeline** to automate the deployment of microservices, event exporting, **API Gateway, Firestore Trigger** based history function and multiversion based documentations
- **Troubleshoot** and fixed **Deployment Manager (DM)** and **Cloud Build** related issues Cloud Function deployment
- **Mentored** junior developers to followed standard practices while writing code and guided them for **CI/CD** work

Ferntech Solutions Pvt. Ltd. | Jr Software Engineer Dhaka, Bangladesh (Hybrid)

2020 March – 2021 Oct.

- Worked with the backend team for developing **Robotic Process Automation (RPA)** builder
- Built **backend microservices** using **Django Rest framework**
- Built **RPA** bots for large banks to automate their manual process using **Python** and **Selenium Webdriver**
- **Research** on **Machine Learning (ML)** based services of **Amazon Web Services (AWS)**, e.g. Textract for PDF data extraction

EDUCATION

Bachelor of Science | BRAC University

2016 - 2020

- Computer Science (CS)

Higher Secondary Certificate (HSC) Notre Dame College, Dhaka

2013 - 2015

- Department: Science

Research Publications

- [Smart Parking Model based on IoT and TensorFlow](#)
7th International Conference on Smart Computing & Communications (ICSCC 2019)
Curtin University, Miri, Sarawak, Malaysia
- [Parking Recommender System Using Q-Learning and Cloud Computing](#)
International Conference on Cyber Security and Computer Science (ICONCS 2020), 607-618
